

BLOCKS *for the* FUTURE

Blocks for the Future offer the opportunity to create high quality, sustainable structures using architectural building blocks made from a high quality engineered sand, consisting of processed coloured glass aggregates which produce on trend colours and textures that softly glisten. Available in finishes including smooth, exposed aggregate, refined and a highly polished mirror like finish.

- Striking finishes
- Durable
- Design flexibility
- Cost competitive
- Greentag certified

Patent No.: 203206165

FINISHES

SMOOTH FINISH

SMOOTH FINISH products have a consistent ultra-smooth even texture with a unique finish that glistens in various light conditions.

Pure White

EXPOSED FINISH

EXPOSED FINISH products are treated after manufacture by shot blasting to create a distinctively unique appearance that exposes the aggregate on the block surface.

Ebony ECO

REFINED FINISH

REFINED FINISH blocks have a state of the art, polished like surface finish in appearance, with a slightly undulating texture.

Pearl ECO

POLISHED FINISH

POLISHED FINISH is the premium finish. Blocks pass through a state of the art polishing machine to achieve ultra smooth, mirror like, high end surface finishes.

Ebony ECO

"Blocks for the Future are our preferred building blocks for use on Commercial and Residential projects due to the extensive range of colours and surface finishes we can offer our clients. The blocks have unique finishes not available elsewhere, they are dimensionally accurate which makes them more efficient to lay. The fact that they are Greentag certified and a sustainable product are further reasons why we lay so many". Andrew Crossin - Crossin Bricklaying 18 years in the industry MBA member

NON STANDARD COLOURS/MADE TO ORDER COLOURS - Minimum order qty's of 150m2
